

Bill of Material Coordinator

BWS Manufacturing Ltd. and Stargate have an opportunity for a **Bill of Material Coordinator** to grow with our organization. Reporting to the Systems Manager, you will be responsible for creating the sales order bill of material that contains the parts and labor required for each unit. You will complete this process by combining the base bills with the correct options. This involves organizational control of the bills of material in the necessary computer systems.

The ideal candidate will have experience maintaining a high level of accuracy and integrity while collaborating with sales, production and procurement to support the operation. You must be a reliable, energetic team player and have the ability to work independently. At times, you will provide guidance and direction to the various departments through coaching and mentoring in regards to the bill of materials.

BWS and Stargate follow the FAIR culture. We have **FUN** while being **ACCOUNTABLE** and always operating with **INTEGRITY** and **RESPECT**. If being part of this culture excites you, this is a great opportunity to build your career.

BWS and Stargate offer an opportunity to grow within the expanding company as well as offer benefits, pension and salary based on experience.

If you are interested, or have specific questions regarding this opportunity, we want to hear from you. Please e-mail a resume to human.resources@bwstrailers.com to initiate a confidential discussion.
